We claim:

c)

1. A system for purchasing goods or services from a vendor, comprising:

- a) a plurality of prepaid credit cards each having a unique identification number and a monetary value printed on its face;
- b) storage means for storing said identification numbers and said monetary value for each of a plurality of prepaid credit cards;

computing means for approving or disapproving a sale; and

d) communication means for transmitting and receiving between said

a charge cost comprised of a price for said goods or services,

whereby a customer using said prepaid credit card is enabled to anonymously purchase said goods or services.

- 2. A system as recited by claim 1, wherein said identification number is embossed on said credit card.
- A system as recited by claim 1, wherein said identification number is encoded in a magnetic strip on said credit card.
- 4. A system as recited by claim 1, wherein said identification number includes a mark indicating card buyer status selected from the group consisting of minor and adult.

- 5. A method of payment for goods or services, comprising the steps of:
 - a) purchasing a prepaid credit card of a predetermined value from a first vendor, said credit card having a unique identification number and having been issued by an issuing institution;
 - b) presenting said prepaid credit card to a second vendor for payment of a charge cost composed of a price for said goods or services;
 - c) transmitting said identification number and said charge cost to said issuing institution;
 - d) deducting said charge cost from said predetermined value, if said predetermined value equals or exceeds said charge cost;
 - e) transmitting sale approval to said second vendor, if said predetermined value equals or exceeds said charge cost; and
 - f) transmitting sale disapproval to said second vendor, if said predetermined value does not equal or exceeds said charge cost,

whereby a customer is able to anonymously purchase said goods or services.

- 6. A method as recited by claim 5, wherein said identification number is embossed on said credit card.
- 7. A method as recited by claim 5, wherein said identification number is encoded in a magnetic strip on said credit card.
- 8. A method of payment for goods or services, comprising the steps of:

| a) | issuing a plurality of prepaid credit cards of various |
|----|---|
| | predetermined values, said credit cards each having a unique |
| | identification number and being issued by an issuing institution; |
| b) | recording said identification number of each credit card with a |
| | corresponding predetermined value; |
| c) | distributing said credit cards to a plurality of first vendors; |
| d) | selling said credit cards at said predetermined value to customers, |
| | said selling being effected by said first vendors; |
| e) | purchasing a prepaid credit card of a predetermined value from |
| | one of said first vendors, said purchasing being effected by said |
| | customer; |
| f) | paying said issuing institution said predetermined value minus a |
| | sales commission; |
| g) | presenting said prepaid credit card to a second vendor for |
| | payment of a charge cost comprised of a price for said goods or |
| | services; |
| h) | transmitting said identification number and said charge cost to |
| | said issuing institution, the transmitting being effected by said |
| | second vendor; |
| i) | deducting said charge cost from said predetermined value, if said |
| | predetermined value equals or exceeds said charge cost; |
| j) | transmitting sale approval to said second vendor, if said |
| | nredetermined value equals or exceeds said charge cost- |

5

- k) transmitting sale disapproval to said second vendor, if said predetermined value does not equal or exceeds said charge cost; and
- paying said issuing institution a commission on said sale,
 whereby a customer using said prepaid credit card is enabled to
 anonymously purchase said goods or services.
